

Developing a Lunch and Learn Workshop

Creating a Lunch and Learn session is a low cost training option. It is a great way to introduce a topic or give a small demonstration on a new product or service. Your participants will be shown the criteria involved in creating a great Lunch and Learn environment. They are usually voluntary, thus attendance can sometimes be an issue. With this workshop you will be given the knowledge work through this issue and others.

Our Lunch and Learn workshop will give your organisation a quick and useful tool to add to its training department. Your participants will be able to use it as a follow-up or refresher to a previous training session. It doesn't have to be just about a learning event, it can also involve collaboration, networking, or sharing best practices between employees.

Workshop Objectives:

- Understand what a lunch and learn is
- Be able to set up and break down
- Create new content
- Address difficult situations and people
- Create useful takeaways
- Use feedback to improve future lunch and learns
